

Flower Arrangement

Arrangement Basics #1

Color: Choose flowers that complement or contrast, consider the colour wheel

Line: Use stems to create different directions and create visual interest.

Form: Consider the shapes of the flowers and foliage, and how they interact with each other.

Texture: Vary the textures of the flowers and foliage for visual interest.

Space: Consider how the flowers and foliage are spaced within the arrangement

Arrangement Basics #2

Balance: Ensure the arrangement is visually balanced, either formally or informally.

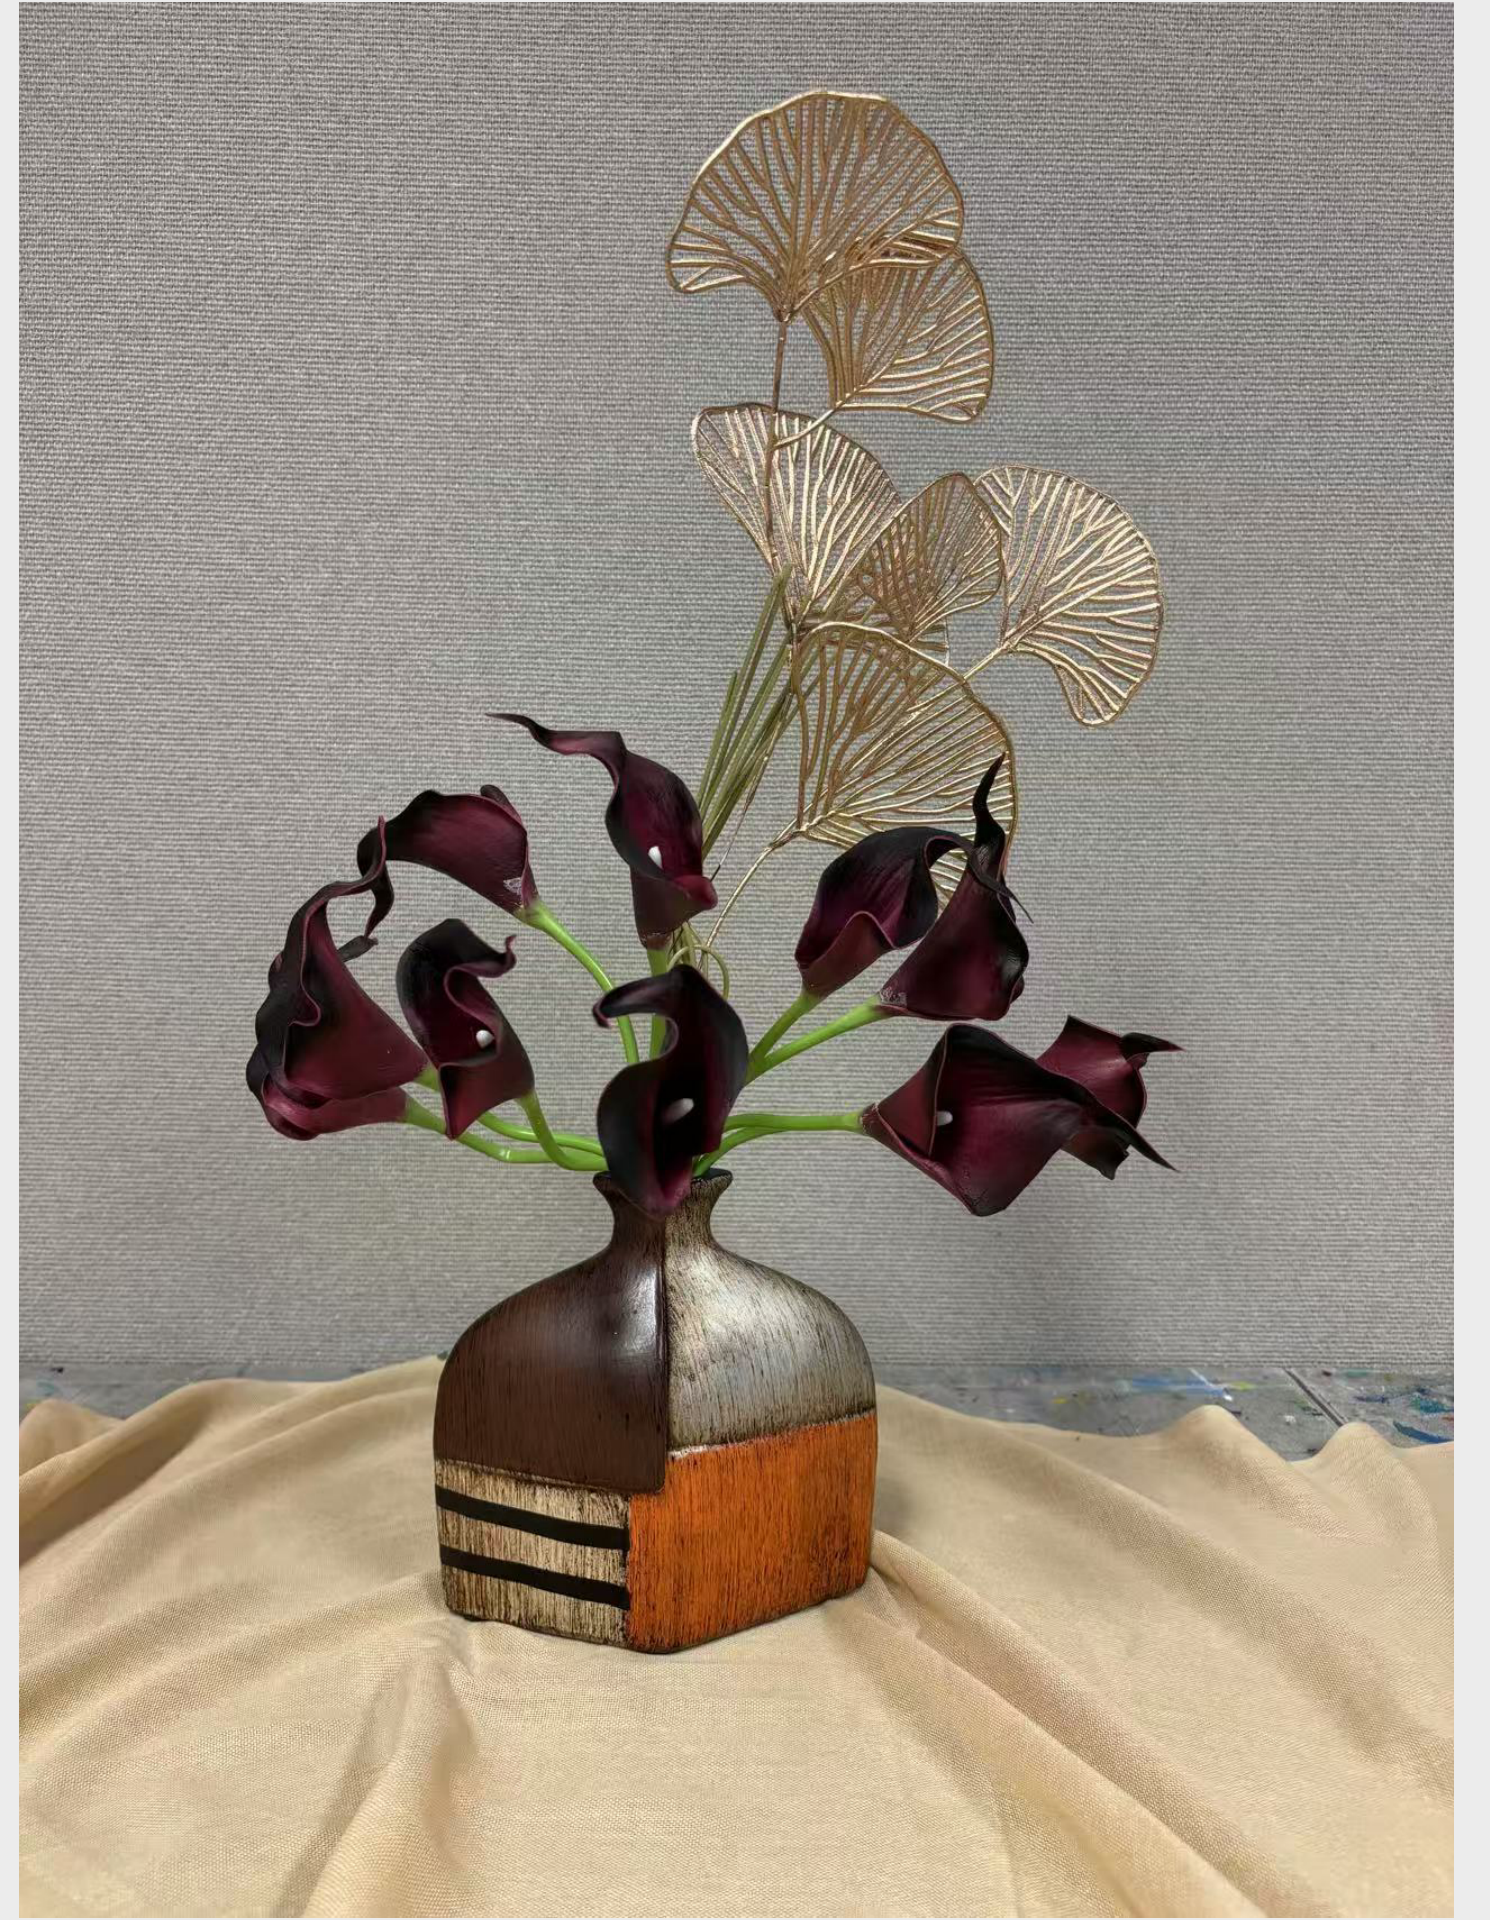

Contrast: Use different colors, textures, and shapes, to create visual interest.

Rhythm: Create a visual flow through the arrangement, guiding the eye.

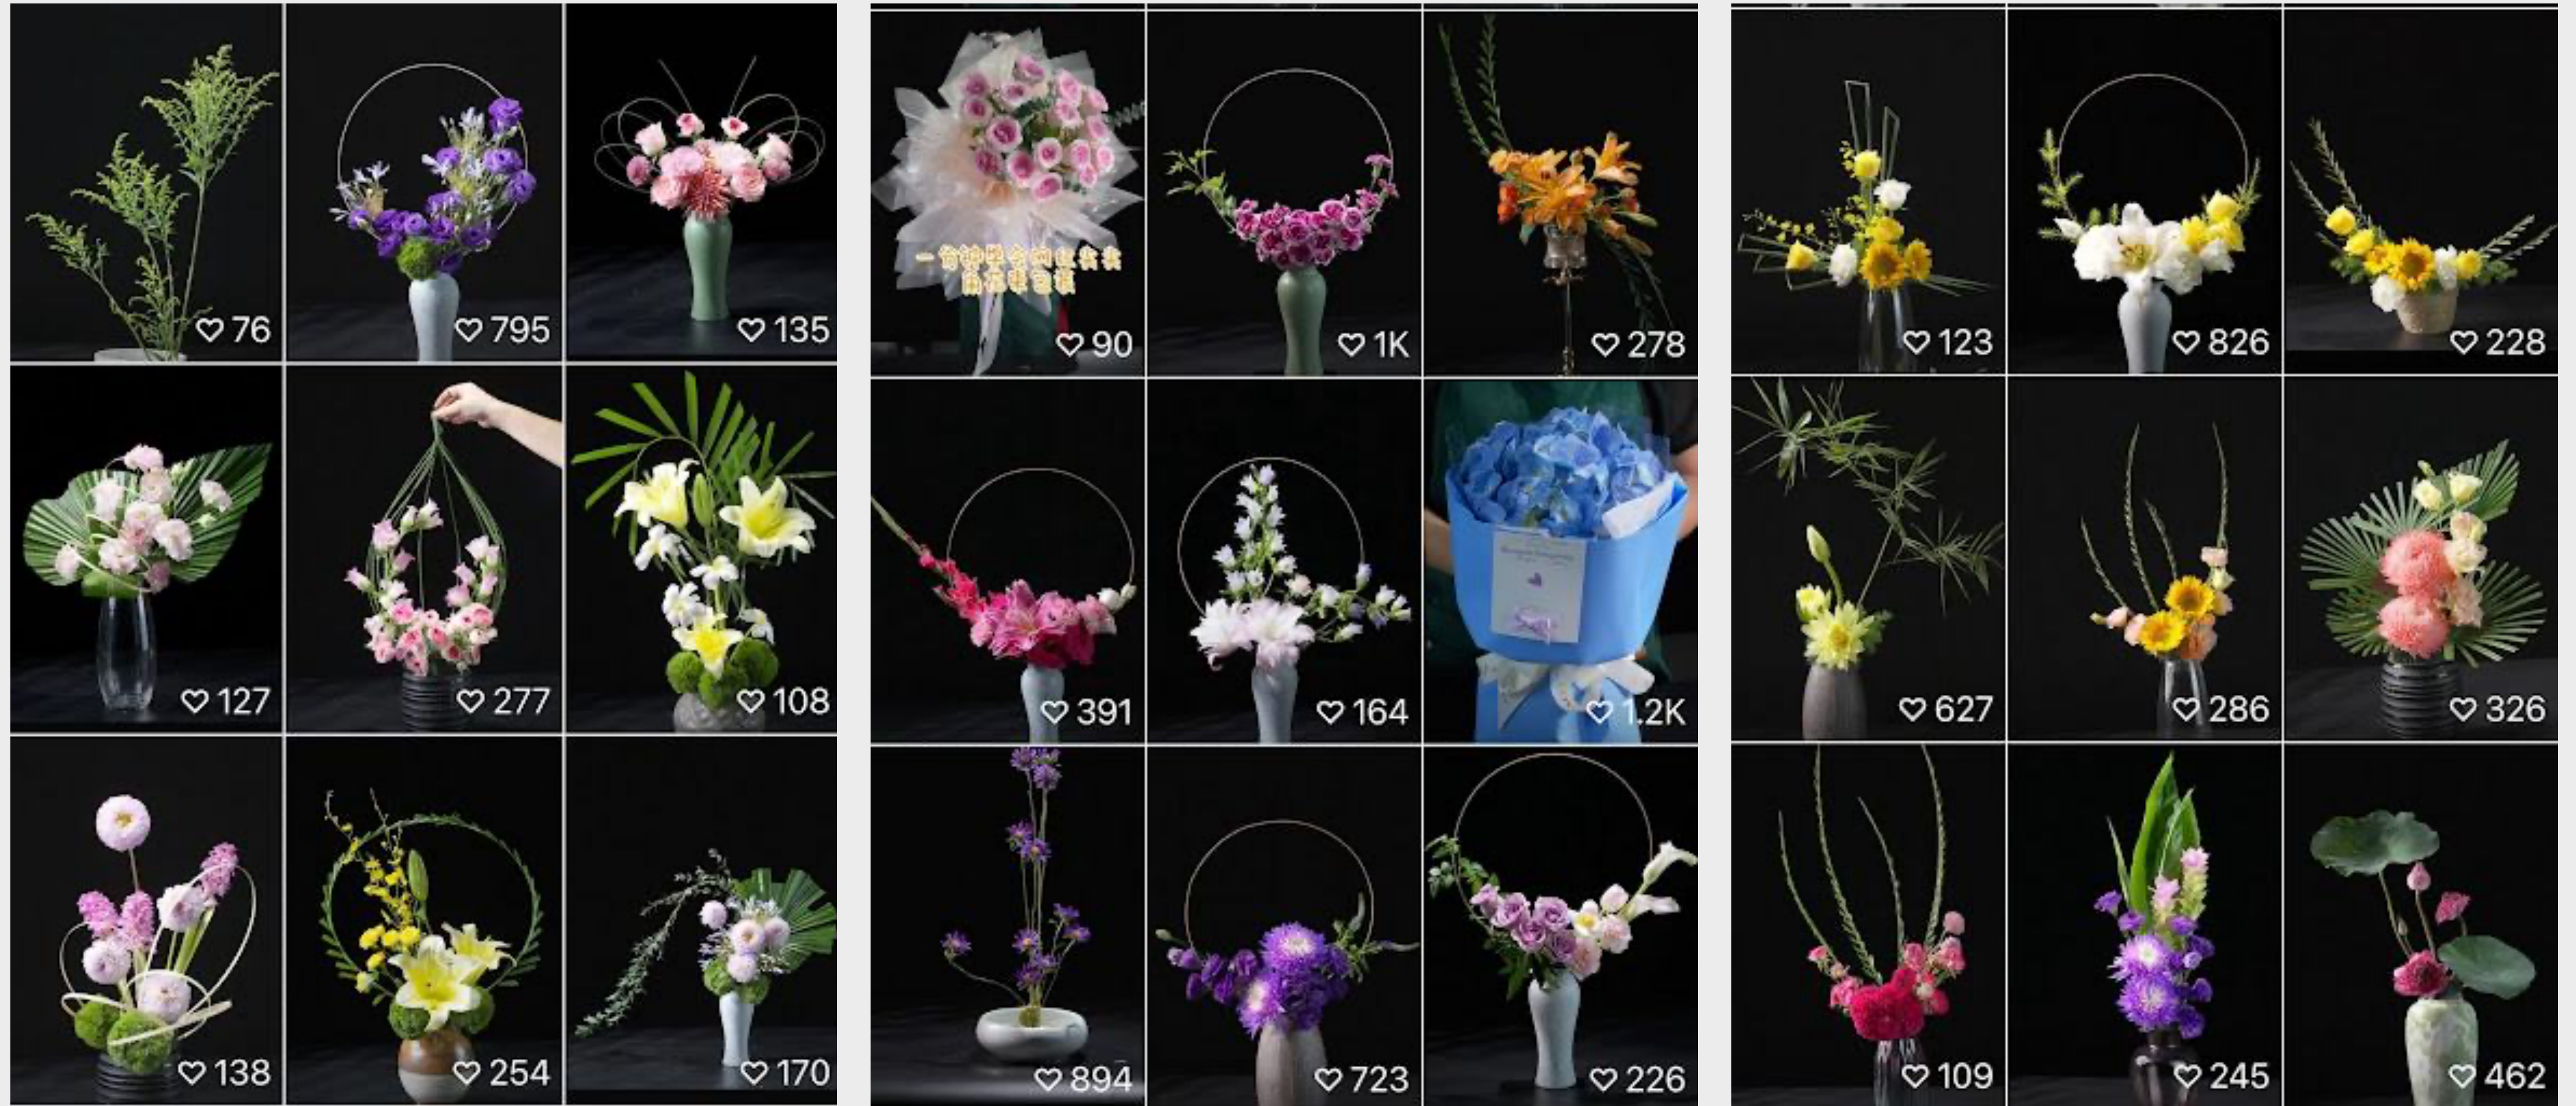

Rule of Three: Group flowers in sets of three to create harmony.

Depth: Use varying heights and depths to add dimension.

Movement: Use foliage with different textures and shapes to create movement.
